Celebrating Women Leaders in Adaptive Snowsports

SheCan is an event for women, and those identifying as female, volunteer BCAS/CADS **ski and snowboard instructors** and adaptive program leads. An event for women, led by women, SheCan is about engaging with one another, sharing experiences, fostering development and growth in a safe space. SheCan creates an opportunity for adaptive instructors to increase their personal skiing / riding skills, teaching and leadership skills.

In addition to developing as an individual, SheCan also presents an opportunity for a motivated group of leaders to explore how collectively they can enhance the adaptive snowsport experience for participants in British Columbia.

There is limited space to create an intimate learning environment. We have an awesome snowboard session leader, snowboard instructors please sign up!
