BC ADAPTIVE SNOWSPORTS

HIGH PERFORMANCE RACE CAMP

specialized race training

SUN PEAKS | JANUARY 6 to 10, 2027

BC Adaptive Snowsports (BCAS) invites classifiable adaptive athletes from across Canada to participate in the High Performance (HP) Camp, a focused development opportunity designed to enhance competitive racing skills and promote equitable representation in high-performance Para alpine skiing.

This specialized camp provides athletes with progressive technical instruction, mentorship, and the confidence to pursue excellence in race events. Participants will engage in a safe, inclusive, and empowering environment that celebrates diversity and fosters leadership among athletes with disabilities.

This initiative is made possible through the generous support of the **Canadian Paralympic Committee and the government of Canada**, with **technical collaboration and expertise provided by Alpine Canada**, helping to strengthen the national athlete pathway and advance the presence of adaptive racers within Canada's alpine community.

Camp Schedule
